 2. b. To keep the heat inside and protect from the cold
 3. b. Wood
 4. b. Their fine wool is used to make Pashmina shawls
 5. b. They have intricate wooden carvings
-

Fill in the Blanks

1. Sloping
 2. Goat
 3. Loner
 4. Thick
 5. Kashmiri
-

True or False

1. False
 2. True
 3. False
 4. True
 5. True
-

Short Questions

1. Houses in Leh have thick walls to keep the interiors warm and small windows to reduce heat loss in extreme cold.
 2. The Changpa tribe lives in high-altitude areas and relies on herding Pashmina goats for their income. They sell wool to make shawls and other products.
 3. Pashmina shawls are made from the fine wool of Pashmina goats. The wool is handwoven, making the shawls warm, soft, and highly valuable.
 4. Houseboats in Srinagar are built on water, featuring intricate wooden carvings that showcase Kashmiri craftsmanship.
 5. Challenges in cold deserts include harsh weather, low oxygen, and limited vegetation. People adapt with thick-walled houses, preserved foods, and warm clothing.
-

PRACTICE WORKSHEET 2: A SHELTER SO HIGH | CLASS 5 ENVIRONMENTAL STUDIES

Long Questions

1. **Adaptations in Houses:** Houses in Leh have thick walls and flat roofs to dry food. In Srinagar, houses have sloping roofs to drain rainwater and are built with wood to resist cold. These designs suit the local climates.
2. **Significance of the Changpa Tribe:** The Changpas depend on Pashmina goats for wool and survive in extreme conditions by moving with their animals to graze. Their lifestyle supports the production of valuable Pashmina shawls, contributing to the economy.
3. **Gaurav Jani's Journey:** Gaurav traveled on his motorcycle, Loner, to Ladakh. He learned about the tough life of the Changpas, their culture, and their connection with nature, gaining insights into surviving in harsh environments.
